- Kanban
- Problem-solving
- Friendly, positive attitude

Work History

Mobile Application   02/2025 - 03/2025

Tesla Lift – Remote

Elevator Service Management Application

- Designed and developed a mobile application for managing elevator installation, maintenance, and support services.
- Built the frontend using **React Native and Expo**, ensuring a smooth and responsive user experience.
- Developed the backend with **Next.js** and a **Supabase** database for efficient data storage and real-time updates.
- Implemented user authentication, role-based access control, and secure API connections.
- Integrated **push notifications** for service reminders and status updates.
- Deployed the app on both the **App Store** and **Play Store**, ensuring accessibility for iOS and Android users.

Web Development   10/2024 - 02/2025

LaListaWBC – Remote

Full-Stack Development of Business Website

- Led the complete development of a web platform for an entrepreneur in **Bucaramanga**.
- Developed the **backend** using **Node.js, Express, and MongoDB**, implementing security measures such as **password encryption with Bcrypt**.
- Built the **frontend** with **Next.js and React**, integrating API consumption with **Axios** for seamless data handling.
- Implemented **Cloudinary** for multimedia management, optimizing image storage and delivery.
- Configured **domain and hosting on Hostinger**, ensuring stable and scalable deployment.
- Deployed the project on **Vercel** for fast performance and global availability.

Full-Stack Developer   04/2024 - 12/2024

Trascender Global – Remote

Frontend Development at Trascender Global

- Developed and optimized **user interfaces** using **React, Next.js, and Tailwind CSS** to ensure responsive and modern web applications.
- **Refactored and optimized code** to enhance performance, maintainability, and scalability.
- **Collaborated closely** with design and backend teams to implement new features and improve user experience.
- Utilized **Azure DevOps** for **task management, sprint planning, and Agile development** following the **Scrum methodology**.

Full-Stack Developer   07/2023 - 02/2024

Empresa Rifas – Remote

Backend & Frontend Development for Raffle Management Platform

- Developed the **backend** using **Node.js, Express, and MongoDB**, ensuring secure and scalable architecture.
- Implemented **purchase functionalities** and **user management system** using **Vue 3 and Quasar**, providing smooth and interactive user experience.
- Integrated **Wompi payment gateway** for secure and seamless transactions.
- Implemented **authentication and security measures** using **JWT and Bcrypt**, ensuring data protection and user privacy.

Education

Software Analysis and Development: Software Engineering   07/2024
SENA - San Gil, Colombia

Courses in Platzi: Software Engineering   01/2024
Platzi - Remote
Full Stack Developer,
Git,
GitHub,
Scrum Master,
React.js,
Vue.js,
Pinia,
Flutter,
Kotlin,
Expo,
React Native

Bachelor of Science: Electronic Engineering   01/2021
Colegio San José De Guanentá - San Gil, Colombia
